60s Seaside

The objects in this remembrance box are all connected with activities and experiences of being at the seaside at the 60s.
 They've been selected to help stimulate strong sensory memories of seaside holidays and conversations that we all can share.

You could add to the session with sun cream, ice cream, fish and chips, etc.

You could use the objects for simple activities linked to games played on the beach, e.g. listening to shells, throwing or rolling a beach ball.

Postcards and the View-Master could be used to trigger individual memories of fishing or cold ice cream on a hot day eating hot fish and chips, the smell and feel of sun cream on hot skin.

Souvenirs are powerful reminders of the past. Even a single picture brought back from a favourite beach can trigger a host of memories.

Remember that objects can stir both good and bad memories and strong feelings in all of us; use your own judgement wherever necessary.
